

## ARG57537 anti-E2 tag antibody

Package: 100 µl  
Store at: -20°C

### Summary

|                     |   |
|---------------------|---|
| Product Description | Mouse Monoclonal antibody recognizes E2 tag         |
| Tested Reactivity   | Other   |
| Tested Application  | WB  |
| Specificity         | This antibody can recognize E2 tag fusion proteins. |
| Host                | Mouse   |
| Clonality           | Monoclonal  |
| Clone               | 9F2   |
| Isotype             | IgG1  |
| Target Name         | E2 tag  |
| Species             | Others  |
| Immunogen           | Synthetic peptide.                                  |
| Conjugation         | Un-conjugated                                       |

### Application Instructions

|                   |  |          |
|-------------------|--|----------|
| Application table | Application  | Dilution |
|                   | WB   | 1:5000   |
| Application Note  | * The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist. |          |

### Properties

|                     |   |
|---------------------|---|
| Form                | Liquid  |
| Purification        | Fractional precipitation  |
| Buffer              | PBS (pH 7.4), 0.02% Sodium azide and 50% Glycerol.  |
| Preservative        | 0.02% Sodium azide  |
| Stabilizer          | 50% Glycerol  |
| Storage instruction | For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use. |
| Note                | For laboratory research only, not for drug, diagnostic or other use.  |

E2 fusion protein

ARG57537 anti-E2 tag antibody WB image

Western blot: 2 µg of E2 fusion protein stained with ARG57537 anti-E2 tag antibody at 1:5000 dilution.
