ARG59778 anti-Tropomyosin 2 antibody

Package: 100 μl Store at: -20°C

Summary

Product Description Rabbit Polyclonal antibody recognizes Tropomyosin 2

Tested Reactivity Hu, Ms, Rat

Tested Application ICC/IF, IHC-P, IP, WB

Host Rabbit

Clonality Polyclonal

Isotype IgG

Target Name Tropomyosin 2

Species Human

Immunogen Synthetic peptide of Human Tropomyosin 2.

Conjugation Un-conjugated

Alternate Names Tropomyosin beta chain; Beta-tropomyosin; TMSB; AMCD1; NEM4; HEL-S-273; DA1; DA2B;

Tropomyosin-2

Application Instructions

Application table	Application	Dilution
	ICC/IF	1:50 - 1:200
	IHC-P	1:50 - 1:200
	IP	1:50 - 1:200
	WB	1:500 - 1:1000
Application Note	* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.	
Positive Control	Mouse lung and SW620	
Observed Size	36 kDa	

Properties

Form	Liquid	
Purification	Affinity purified.	
Buffer	PBS (pH 7.3), 0.02% Sodium azide and 50% Glycerol.	
Preservative	0.02% Sodium azide	
Stabilizer	50% Glycerol	
Storage instruction	For continuous use, store undiluted antibody at 2-8°C for up to a week. For long-term storage, aliquot and store at -20°C. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw	

For laboratory research only, not for drug, diagnostic or other use.

Bioinformation

Gene Symbol TPM2

Gene Full Name tropomyosin 2 (beta)

Background This gene encodes beta-tropomyosin, a member of the actin filament binding protein family, and

mainly expressed in slow, type 1 muscle fibers. Mutations in this gene can alter the expression of other sarcomeric tropomyosin proteins, and cause cap disease, nemaline myopathy and distal arthrogryposis syndromes. Alternatively spliced transcript variants encoding different isoforms have been found for

this gene.[provided by RefSeq, Mar 2009]

Function Binds to actin filaments in muscle and non-muscle cells. Plays a central role, in association with the

troponin complex, in the calcium dependent regulation of vertebrate striated muscle contraction. Smooth muscle contraction is regulated by interaction with caldesmon. In non-muscle cells is implicated in stabilizing cytoskeleton actin filaments. The non-muscle isoform may have a role in

agonist-mediated receptor internalization (By similarity). [UniProt]

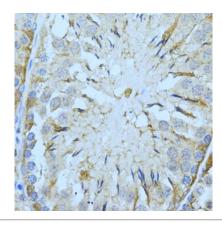

Calculated Mw 33 kDa

PTM Phosphorylated on Ser-61 by PIK3CG. Phosphorylation on Ser-61 is required for ADRB2 internalization

(By similarity). [UniProt]

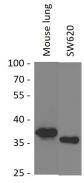

Cellular Localization Cytoplasm, cytoskeleton. Note=Associates with F-actin stress fibers. [UniProt]

Images

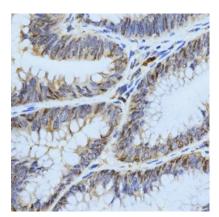

ARG59778 anti-Tropomyosin 2 antibody IHC-P image

Immunohistochemistry: Paraffin-embedded Rat testis stained with ARG59778 anti-Tropomyosin 2 antibody at 1:200 dilution.

ARG59778 anti-Tropomyosin 2 antibody WB image

Western blot: 25 μg of Mouse lung and SW620 cell lysate stained wtih ARG59778 anti-Tropomyosin 2 antibody at 1:400 dilution.

ARG59778 anti-Tropomyosin 2 antibody IHC-P image

Immunohistochemistry: Paraffin-embedded Human rectal cancer stained with ARG59778 anti-Tropomyosin 2 antibody at 1:200 dilution.
