

**ARG70026**  
anti-PRRSV antibody [SR30] (FITC)Package: 1 ml  
Store at: -20°C

### Summary

|                     |   |
|---------------------|---|
| Product Description | FITC-conjugated Mouse Monoclonal antibody [SR30] recognizes PRRSV |
| Tested Reactivity   | Virus   |
| Tested Application  | ICC/IF  |
| Host                | Mouse   |
| Clonality           | Monoclonal  |
| Clone               | SR30  |
| Isotype             | IgG1  |
| Target Name         | PRRSV   |
| Species             | Virus   |
| Immunogen           | A highly conserved epitope on the nucleocapsid protein of PRRSV.  |
| Conjugation         | FITC  |

### Application Instructions

| Application table | Application | Dilution |
|-------------------|-------------|----------|
|                   | ICC/IF      | 1:50     |

**Application Note** \* The dilutions indicate recommended starting dilutions and the optimal dilutions or concentrations should be determined by the scientist.

### Properties

|                     |  |
|---------------------|--|
| Form                | Liquid   |
| Buffer              | PBS  |
| Storage instruction | For continuous use, store undiluted antibody at 2-8°C in dark for up to a week. For long-term storage, aliquot and store at -20°C or below in dark. Storage in frost free freezers is not recommended. Avoid repeated freeze/thaw cycles. Suggest spin the vial prior to opening. The antibody solution should be gently mixed before use. |
| Note                | For laboratory research only, not for drug, diagnostic or other use.   |
