ARG83104 Mycoplasma DNA Detection Kit

Package: 100 tests Store at: -20°C

Summary

Product Description Mycoplasma DNA Detection Kit is designed for the detection of mycoplasma contamination in master

cell bank, working cell bank, cells for clinical use and biological products. Mycoplasma DNA Detection

Kit conforms to relevant regulations about mycoplasma testing in EP2.6.7 and JP XVI.

Mycoplasma DNA Detection Kit adopts the qPCR-fluorescent probe method. The kit is a rapid, specific

and reliable device and can finish the detection within 2 hours.

Tested Reactivity Other

Tested Application FuncSt

Target Name Mycoplasma DNA

Sample Type Biological samples

Application Instructions

Assay Time ~ 2 hour

Properties

Storage instruction Store the kit at -20°C at all times. All reagents must be kept on ice during the entire experiment.

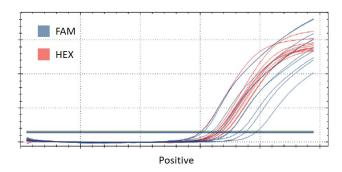

Note For laboratory research only, not for drug, diagnostic or other use.
